

## **Statement of Qualifications**

Innovative Corrosion Control, Inc. is an environmental firm focusing primarily on *Corrosion Protection* of underground and aboveground metal structures. The scope of services offered include, of course, cathodic protection (both design and installation) but also material selection assistance, high performance coating selection assistance and monitoring or maintenance of any number of corrosion prevention systems. We begin each project analytically, work through it diligently and finish it to our own high standards, as well as our clients complete satisfaction. At Innovative Corrosion Control, Inc., we believe in **Protecting Each Site as Our Own.**

### **Experience and Qualifications**

N.A.C.E. certified personnel on staff.

All Field Technicians CP Tester or above certified.

40 + Years experience in external corrosion and corrosion prevention systems.

Underground and Above Ground Storage Tank licensed: "A" & "B" certifications.

40 + Years experience in the environmental field.

### **Available Services**

#### **Cathodic Protection:**

Sacrificial Anode Systems; Design, Installation, Inspection or Repair

Underground storage tanks systems

Underground piping systems

Impressed Current Systems; Design, Installation, Inspection or Repair

Underground storage tank systems

Underground piping systems

Aboveground storage tank systems, (water and other non-flammable storage)

#### **Coating Selection Assistance:**

Building Material Coatings; Selection and Supervision of Installation

Structural materials

Interior and exterior surface coatings

Piping and Ancillary Equipment Coatings

#### **Monitoring and Maintenance:**

Cathodic Protection Systems

Paint and Coating Systems

#### **Other Professional Services:**

Soil Resistivity Surveys;

Single Point

Linear Array

Forensic Investigations

Failed Reinforced Concrete Structures

Failed Metal Structures

Grounding System Inspection and Design Assistance
